---

Gary,

For your Review. I believe the current format of the Q&A is too hard to read online. What do you think?

**Subject:** FW: Answers to Questions Including Schedule for April fo San Jacinto River Waste Pits

Joan,

The attached file has answers to questions we received from the community. I would appreciate it if you could put this on the EPA Site Profile for the San Jacinto River Waste Pits site.

I would also like to discuss with you doing some other work on the San Jacinto Site Profile, so let me know if you're in today & I will call to discuss.

Thanks,

Gary Miller
